

## **Spiral Dance**

Jaiya©2005

Chorus:

Spiraling in time  
Interwoven lines of entropy  
Beyond reason or rhyme  
Myriad fine patterns come to be

Now we're weaving into form  
Then out of form we flow  
Magnetized toward a central point  
Where all must go

Chorus

Merry meet and merry part  
And shall we meet again?  
Spiraling in circle art  
We spin this wild refrain

Chorus

In your hand red silken threads  
But in my hand they're blue  
For a time they intertwine  
'Til the dance begins anew

Chorus

Into time and out of time  
In this reality  
We are known to be unknown  
We dance this mystery
